

Naples Municipal Airport, Emergency Access Road Naples, Florida

Project Title: Emergency Access Road Around Runway 23 End Design
Project Number: 15726
Customer: Naples Airport Authority
Dollar Amount: \$1,041,261.20
Percent Complete: 100%
Completion: March 30, 2007
Role: Prime Contractor

Project Scope:

Design and construction of a 22 ft wide emergency access road around the runway 23 safety area. This project included clearing and grubbing, consolidating and moving portions of a closed landfill, installation of storm water piping, and paving on the perimeter of an active runway safety area. Additionally, QE was issued a change order to widen 1,020 ft of the access road to 40 ft and paving using P-401 asphalt for use as a taxi lane.
